

## JohnsonDiversey Tego 2000®

### Terminal disinfectant for open plant applications

# VT25

#### Description

TEGO 2000® is a versatile and effective amphoteric-based disinfectant suitable for open plant cleaning applications throughout the food, beverage and dairy industries.

#### Key properties

**TEGO 2000®** is based on a concentrated solution of an amphoteric surface active agent which has excellent disinfectant properties against a wide range of micro-organisms. Extensive laboratory and field tests have shown that **TEGO 2000®** is effective against both Gram-positive and Gram-negative bacteria (including pathogens of Salmonella, Campylobacter and Listeria species) and yeasts.

**TEGO 2000®** is recommended for application in all open plant cleaning processes. It should be applied after surfaces have been thoroughly cleaned and rinsed. It can be used for disinfecting floors, walls, utensils and other food preparation equipment and is suitable for use in meat and poultry processors, snack foods, dairies, beverage plants and most other types of food processing operations.

**TEGO 2000®** is suitable for manual, soak or spray application and for fogging use.

**TEGO 2000®** is the registered trademark of Goldschmidt AG, Germany.

#### Benefits

- Highly effective terminal disinfectant for food industry use
- Extensive support data available on request
- Suitable for application on a wide range of surfaces
- Non-tainting
- Effective in soft or hard water

#### Use instructions

**TEGO 2000®** is used at concentrations between 0.5-2.0% v/v depending on application. Always rinse thoroughly after use. For specific details, please refer to individual method cards.

#### Technical data

Appearance	clear, colourless to pale yellow liquid
Relative Density at 20°C	1.00
pH (neat solution at 20°C)	8.0
Chemical Oxygen Demand (COD)	425 gO <sub>2</sub> /kg
Nitrogen Content (N)	19 g/kg
Phosphorous Content (P)	none

The above data is typical of normal production and should not be taken as a specification.

#### Safe handling and storage information

Store in original closed containers, away from extremes of temperatures. Full guidance on the handling and disposal of this product is provided in a separate Material Safety Data Sheet.

## **JohnsonDiversey Tego 2000®**

### **Product compatibility**

TEGO 2000® is safe when applied as recommended for use on materials commonly found in the processed food industry. Always rinse surfaces thoroughly after use.

In the event of uncertainty, it is advisable to evaluate individual materials before any prolonged use.

### **Test method**

Available on request.
