

# JohnsonDiversey Shuregel 5

## Heavy Duty Gel Cleaner

### Description

**Shuregel 5** is a highly caustic alkaline gel formulated primarily to clean work surfaces and other process plant in the food and beverage industries.

### Key properties

**Shuregel 5** contains a blend of alkaline materials, sequestrants, dispersants and wetting agents to provide excellent detergency in a free rinsing formulation.

**Shuregel 5** is formulated for use on stainless steel surfaces. Contact with soft metals is not recommended. Compatibility with other materials should be checked prior to use.

### Benefits

- Extended contact times
- Effective in the removal of grease and fat soils
- Hard water tolerant

Effectively removes carbonised soils

### Use instructions

**Shuregel 5** has been formulated to be used neat although its gel characteristics will be retained if diluted by up to half. It may be applied either by gel injector and lance or by pressurised sprayer.

### Technical data

Appearance	A light brown gel
Specific gravity	1.12 (typical)
pH (neat)	13
Non flammable	

### Safe handling and storage information

Store in original closed containers, away from extremes of temperatures.

### Product compatibility

Do not use on Aluminium or other soft metals. Compatibility with plant and materials of construction should be confirmed before use.

### Available pack sizes

Please contact you local representative for pack sizes.
