

JohnsonDiversey Ultraclean

General purpose liquid detergent for manual use

VK3

Description

Ultraclean is a general-purpose liquid detergent designed for manual cleaning applications in the food, beverage and dairy industries.

Key properties

Ultraclean is a mildly alkaline product containing an optimised blend of sequestrants, wetting agents and emulsifiers. Its powerful formulation is particularly effective for the removal of animal and vegetable based fats and proteinaceous soil from floors, walls and all food preparation surfaces. It is also recommended for external cleaning of processing plant and for vehicle cleaning. **Ultraclean** is a moderate-low foaming product and is suitable for application by hand or using a floor automat or low pressure cleaning equipment.

Benefits

- Powerful cleaner, effective against a wide range of soils
- Versatile and economical
- Use in soft or hard water
- Non-perfumed product
- Free rinsing

Use instructions

Use **Ultraclean** at concentrations between 0.5-5% v/v dependent on the type and degree of soiling. For specific details please refer to individual method cards.

Technical data

| | |
|------------------------------|--------------------------|
| Appearance | clear, colourless liquid |
| Relative Density at 20°C | 1.07 |
| pH (1% solution at 20°C) | 11.6 |
| Chemical Oxygen Demand (COD) | 223 gO ₂ /kg |
| Nitrogen Content (N) | 4.6 g/kg |
| Phosphorous Content (P) | none |

The above data is typical of normal production and should not be taken as a specification.

Safe handling and storage information

Store in original closed containers or (where applicable) in an approved bulk tank, away from extremes of temperatures. Full guidance on the handling and disposal of this product is provided in a separate Material Safety Data Sheet.

Product compatibility

Ultraclean when applied at the recommended concentration and temperature is safe for use on materials commonly found in the processed food industry. Always rinse surfaces thoroughly after use (within 1 hour). In the event of uncertainty it is advisable to evaluate individual materials before any prolonged use.

Test method

Not applicable.
